June & 30th September for the years 1991-92, 1992-93 and 1993-94 are as under:—

(Rs. crores)

	1991-92	1992-93	1993-94
30th June	11502	7426	15382
30th September	10374	7700	15637

(c) Government is continuously monitoring the doficit position.

(d) There is no synchronisation between the receipts and expenditure. The gap between expenditure receipts tends to be higher in the initial months of the year. Towards the end of the financial yead when receipts normally go up, the doficit shows a declining trend. Hence deficit at any particular point of time is not a definite indicator of the year-end deficit. The Revised Estimates for 1993-94 are under preparation and will be presente alongwith the budget estimates for 1994-95.
